SAVORE SUPPLY

In-Home Kitchen Restocking

Our incredible purveyors continue to provide us with the fine products that have always inspired SAVORE menus.

SAVORE SUPPLY brings those products to your home kitchen, cleaned, butchered, portioned, and packaged using SAVORE SUPPLY'S signature ultra-clean, ultra-sanitary, cryovac method.

Our commercial cryovac machines vacuum-pack perishables in hermetically heat-sealed heavy-gauge bags that allow fresh goods to be kept fresher for longer in the refrigerator, and also protect food surfaces for deep freezing. We use absolutely NO preservatives.

SAVORE SUPPLY "SHELF-LIFE"

	Refrigerator	Freezer
Meats	14 Days	12 Months
Fish	10 Days	9 Months
Vegetables	14 Days	9 Months

Here's how SAVORE SUPPLY works:

1. Place your order by emailing contact@savore.com. Select from our Raw Products (RAW) List or from one of our Fully-Cooked (FC) or Almost-Finished (AF) Menus, or a combination thereof.
2. Preparation of your order begins once all ingredients are received in our kitchen. A maximum of 2 kitchen staff will handle your order start-to-finish, and all items are quickly chilled and sealed in our cryovac machine.
3. Orders are then quickly flash-frozen (FF) in our blast-freezer. ****OPTIONAL****
4. All items are packaged in insulated cooler boxes and are labeled with packed-on & use-by dates as well as finishing instructions for Almost-Finished menu items.
5. Your order is now ready for delivery. We will contact you to arrange the details of your "NO CONTACT" drop-off. As preparation times will vary, you can expect delivery within 36-72 hours from the time your order is confirmed.
